Vials, cryogenic, polypropylene, external thread

CORNING

- Certified RNase/DNase free and non-pyrogenic
- Silicone washer for a secure seal
- Large writing area and black graduations
- Vials can be colour coded with inserts
- Polypropylene, withstands temperatures down to -196°C
- Sterilised by gamma radiation
- Foam rack included with each case
- Self-standing vials have a special base design allowing them to be locked into cryogenic racks for single-handed manipulation

Warning! Do not use cryogenic vials for storage in the liquid phase of liquid nitrogen. Only store vials in the vapour phase above the liquified gas. Always use appropriate safety equipment when removing vials from cryogenic storage.
