

Bags, sample, polyethylene, sterile, Fisherbrand®

Fisherbrand®

An economical and efficient way to collect, contain and carry samples.

- Secure, contaminant free bags to ensure dependable analysis results
- Made from heavy gauge, virgin polyethylene that meets FDA specifications
- Can accommodate solid, semi solid and liquid materials
- Easy to use, just insert sample and seal by twirling the bag away from you four times and bending wire ends inward
- Choice of round wire or flat wire closures (flat wire closures provide extra strength to seal larger and heavier samples)
- Available in a variety of sizes and with clear or printed write on labels

Clear, unlabelled with round wire closure
