

# Centrifuge tubes

## Tubes, centrifuge, conical, 15mL/50mL, Fisherbrand®

**Fisherbrand®**

- A large white marking area makes it easy to label samples
- All sizes and types are available with a blue plug seal closure with a double start thread design that provides a tight secure seal
- Most types are also available with a standard flat top cap
- Tubes are sterilised by gamma radiation and are non-cytotoxic
- Available packed in racks or sleeves
- Racks are not available separately

Disposable conical bottom tubes with evenly spaced black printed graduations to enhance readability without losing precision.

### 15mL tubes, graduated in 0.5mL subdivisions from 2mL to 14.5mL, 17mm x 119mm

Polypropylene, packed in racks, sterile

## Tubes, centrifuge, Thermo Scientific Nunc® EZ Flip™ cap

**Thermo**  
SCIENTIFIC | **nunc**

- Integrated leakproof cap prevents cross contamination and lost closures
- Patented hinged cap system
- Ergonomic design for one handed opening and closing
- Clarified polypropylene construction provides chemical resistance and high RCF tolerance
- White writing area and flat caps for sample identification
- Printed graduations
- Standard dimensions compatible with centrifuge rotors
- 15mL and 50mL versions are available

Thermo Scientific Nunc EZ Flip™ conical centrifuge tubes feature a patented, hinged flip cap design in standard 15mL and 50mL sizes.

These innovative tubes can be opened and closed with one hand, freeing the user's other hand for manipulations, such as pipetting.
