

# Centrifuge tubes

## Tubes, microcentrifuge, lip seal screw cap, natural, Fisherbrand®

These tubes are available as self-standing or conical.

The flexible sealing lip inside the cap ensures a positive leakproof seal. This deep internal lip fits snugly against the interior wall of the tube preventing the contents from coming in contact with the threads, thus reducing the chances of sample contamination. Caps are not supplied with attachment loops for users who prefer to remove caps completely from the tubes when filling or sampling. Cannot be autoclaved since closure is made of high density polyethylene. Can be centrifuged at up to 17,000xg. Will withstand temperatures from -90°C to 100°C.

### Non-sterile

Catalogue No	Legacy No	Type	Capacity, mL	Pack qty
11596889	-	Self-standing	0.5	1,000

## Tubes, microcentrifuge, graduated, screw cap, natural, Fisherbrand®

These tubes are available as self-standing or conical with an O-ring secured in the top of the cap ensuring a positive leakproof seal but without the loop for users who prefer to remove caps completely from the tubes when filling or sampling.

With printed graduations and white marking area for sample identification. Can be centrifuged at up to 17,000xg. Will withstand temperatures from -196°C to 121°C.

11516839	-	Self-standing	0.5	500
11546839	-	Self-standing	1.5	500
11576839	-	Without skirt	1.5	500
11506849	-	Self-standing	2.0	500
11536849	-	Without skirt	2.0	500

## Tubes, microcentrifuge, polypropylene, conical, 1.5mL

- High quality, standard micro-test tube
- Roughened writing surfaces (on side and flat lid)
- Easy open/close lid
- Graduations from 0.1mL to 1.5mL
- Autoclavable, when open, to 121°C
- Can be centrifuged at up to 25,000xg (70,000xg in swing bucket)

High quality tubes with easy open/close lid, writing surface and graduations from 0.1mL to 1.5mL available as standard and PCR\* clean tubes.

Catalogue No	Legacy No	Alt. No	Type	Pack qty
10451043	-	0030 125.150	Standard	1,000
10154671	-	0030 125.215	PCR* clean	1,000
