

Continuation

Incubators, shaking, floor standing, Thermo Scientific MaxQ™ 6000 incubated/refrigerated stackable shakers

Stackable units accept flasks up to 6L. Two adjustable-height shelves provide added storage. Choose from two temperature ranges to fulfill a variety of molecular biology, protein expression or plasmid purification studies.

Technical Specification - Specific

	10449933	10795714
Type	Digital	Digital
Speed, rpm	15 to 300 (stacked) 15 to 500 (unstacked)	15 to 300 (stacked) 15 to 500 (unstacked)
Temperature range, °C	10 above ambient to 80	15 below ambient to 80
Dimensions [w x d x h], mm	838 x 699 x 1,029 (unstacked) 533 x 559 x 686 (stacked)	838 x 699 x 1,029 (unstacked) 533 x 559 x 686 (stacked)
Mass, kg	150	195

Technical Specification - General

Timer	0.1 to 999hr, 0.1 to 999min or continuous
Orbit diameter, mm	19
Material	Stainless steel chamber, cold-rolled steel exterior
Electrical supply	220-240V 50/60Hz
