

Graticules, eyepiece

03

Mounted on optical glass discs with scales and rulings in black on a clear background. Suitable for Olympus microscopes, as well as most other standard microscope eyepieces. Not suitable for use in eyepieces with pointers.

Catalogue No	Scale	Diameter, mm	Length, mm	Subdivisions, μ m
YSG-600-030H	Horizontal	19	10	100
YSG-610-030A	Vertical	19	10	100
YSG-620-030Q	Vertical/ horizontal	19	10	100

Catalogue No	Description
YSG-640-030C	Eyeiece graticule, 19mm diameter, with one square, 10mm sides, divided into 100 squares of 1mm numbered and lettered along two edges

Immersion oils, microscope slide

03

A range of oils for normal light or fluorescence microscopy. Supplied with a listing of optical and physical properties. Supplied in 120mL bottle.

Catalogue No	Alt. No	Description
MIC-904-010G	4105	Type A low viscosity, 150 centistokes
MIC-904-030A	4106	Type B medium viscosity, 1,250 centistokes
MIC-904-070L	4109	Type DF for fluorescence microscopy, 330 centistokes
MIC-904-090F	4109	Type FF for fluorescence microscopy, 170 centistokes

Lens cleaning tissue

41

- High quality lens cleaning tissues
- Very fine paper
- Non scratching

Catalogue No	Description	Pack qty
